

2010

CENTRAL AIR TUNE-UP INCENTIVE PROGRAM

A spring inspection and tune-up of your central air conditioner unit can improve its efficiency and increase its life span. Without regular cleaning and maintenance, an air conditioner can lose up to 5% of its original efficiency for each year of operation.

Lake Mills Light and Water offers bill credits to encourage regular inspection and maintenance of central air conditioners. If you are a homeowner or business owner with a central air conditioner, you may be eligible for up to \$25 toward a professional service inspection and tune-up.

How to Apply:

1. To qualify for an incentive, the applicant must meet all of the eligibility conditions and complete the incentive application on the reverse side.
2. Attach a **copy of the paid invoice** from a professional heating and cooling inspection and tune-up service. The receipt or inspection documentation must indicate the date of service, dealer name and address, an itemized list of service checkpoints, and any repair recommendations.
3. Drop off your completed application at our office or mail it to LMLW, 307 N. CP Avenue, Lake Mills, WI 53551.
4. Tune up work must be completed between April 1, 2010 and October 1, 2010.
5. Incentive applications must be received in our office by October 15, 2010.

Eligibility:

- The Central Air Tune-Up Incentive Program is available to residential and business customers with a valid Lake Mills Light and Water electric account.
- Only central air conditioning units of 5 tons or less that are eligible.
- To receive a \$25 bill credit, a tune-up of the central air conditioner must be performed by a professional service technician and include the following 12-point inspection:

- Check and clean condensing unit coils
- Check wiring and connections
- Check coolant level
- Check system operating pressures and temperatures against manufacturers specification
- Check condensate pump and drain line
- Check thermostat
- Inspect air filter and replace if necessary
- Check compressor contacts
- Check belts and drives
- Clean and adjust controls
- Lubricate moving parts and clean indoor fan
- Check voltage

- In no case will Lake Mills Light and Water pay more than 100% of the actual purchase price of the central air conditioner inspection and tune-up.

The Central Air Tune-up Incentive Program is funded by the Public Benefits Charge.

This program is in effect from April 1, 2010 to October 1, 2010

Certification and Agreement

I understand that this offer provides a \$25 incentive for the inspection and tune-up of central air conditioners no larger than 5 tons at residences currently receiving electricity on a retail basis from Lake Mills Light and Water. Qualifying inspections and tune-ups must include all items listed in the 12-point checklist above and must be performed by a professional heating and cooling service technician.

I agree that Lake Mills Light and Water reserves the right to verify sales receipts before issuing incentives. **Qualifying inspections and tune-ups must be purchased between April 1, 2010 and October 1, 2010.**

I agree that Lake Mills Light and Water does not guarantee that the central air conditioner inspection and tune-up or the implementation of any energy efficiency described in this application will result in energy cost savings. Lake Mills Light and Water makes no warranties, expressed or implied, with respect to any equipment purchased and/or installed including, but not limited to, any warranty of merchantability or fitness for purpose. In no event shall Lake Mills Light and Water be liable for any incidental or consequential damages.

I understand that this program has a limited budget, and that applications will be accepted on a first-come, first-served basis, until allocated funds are spent. This program may be modified or discontinued at any time without notice.

I certify that all statements made in this application are correct to the best of my knowledge. I agree to the terms and conditions of this offer as set forth on this application.
