### BLOCK CHARGE FOR RENEWABLE ENERGY

\$3.00 per 300 kWh block of renewable energy per month.

### STREET LIGHTING SERVICE

Ms-1

Applied to municipal street lighting. The utility will furnish, install, and maintain street lighting units.

### Use shall be estimated as follows:

35 Watt LED	13 kWh per month
175 Watt Mercury Vapor	68 kWh per month
70 Watt (Decorative) Sodium	30 kWh per month
100 Watt Sodium	43 kWh per month
150 Watt Sodium	72 kWh per month
250 Watt Sodium	108 kWh per month
400 Watt Sodium	180 kWh per month
500 Watt Sodium	150 kWh per month
1500 Watt Quartz	45 kWh per month
150 Watt Spot	450 kWh per month

### PCAC = Power Cost Adjustment Clause

All metered rates shall be subject to a positive or negative power cost adjustment charge equivalent to the amount by which the current cost of power (per kilowatt-hour of sales) is greater or lesser than the base cost of power purchased (per kilowatt-hour of sales).

### PRIMARY & TRANSFORMER DISCOUNTS

Primary Voltage Discount: 2.00 percent discount on the monthly energy charge, distribution demand charge and demand charge.

### STREET LIGHTING SERVICE

Ms-1

Transformer Ownership Discount: \$0.25 per kW of distribution demand.

# GENERAL UTILITY SERVICE RULES

2022

1. All Electric, Water and Sewer bills for services are rendered monthly.
2. A charge of 1% per month will be added to bills not paid within 20 days from the date of issuance. The late payment charge shall be applied to the total unpaid balance for utility service, including unpaid late payment charges. Utility will not waive any properly applied late payment charges.
3. Date on check is not sufficient proof that payment was received by the due date.
4. Failure to receive a bill in no way exempts customers from the provisions of these rules.
5. Electric customers whose services are disconnected because of nonpayment of bills when due, shall be required to pay a charge of \$40.00, before service will be restored during regular hours. If reconnected after regular hours, emergency only, a charge of \$80.00 will apply.
6. Water customers: The utility shall assess a charge to reconnect a customer, which includes reinstalling a meter and turning on the valve at the curb stop, if necessary. A utility may not assess a charge for disconnecting a customer. During normal business hours: \$40.00. After normal business hours: \$60.00.
7. Insufficient Fund Charge: A \$20.00 charge will be applied to the customer's account when a check rendered for utility service is returned for insufficient funds. This charge may not be in addition to, but may be inclusive of, the water utility's insufficient fund charge when the check was for payment of both electric and water service.
